FREE CHILDCARE WITH FUN ACTIVITIES

In 1979, Steven Mosher was the first American social scientist to visit mainland China. Invited there by the Chinese government, he had access to government documents and actually witnessed women being forced to have abortions under the new one-child policy.+He was a pro-choice atheist at the time, but witnessing these traumatic abortions led Mosher to reconsider his convictions and to eventually become a Christian.

Mosher has appeared numerous times before Congress as an expert in world population, China, and human rights abuses. He has also made TV appearances on Good Morning America, 60 Minutes, The Today Show, 20/20, FOX and CNN news, and is a regular guest on talk radio shows across the nation.

He is also the author of many books, including the best-selling *A Mother's Ordeal: One Woman's Fight Against China's One-Child Policy*.
