**Friday, October 24, 2025**  
**Ambassador Conference Center**  
**7794 Peach Street, Erie, PA**

**Doors open at 5 p.m. Program at 6 p.m.**

David C. Reardon, PhD, our special guest speaker, is a leading authority on the aftereffects of pregnancy loss due to abortion and other causes. He is a noted advocate of healing programs for women, men, and families who have experienced the loss of a child due to abortion, miscarriage, or neonatal death.

Studies by Dr. Reardon have appeared in such prestigious publications as the *British Medical Journal* and the *American Journal of Obstetrics and Gynecology*. His studies show conclusively that, compared to childbirth, abortion and miscarriage are associated with higher rates of maternal death, psychiatric hospitalization, subsequent substance abuse, clinical depression, and numerous other complications.

Dr. Reardon and his work have appeared in numerous newspapers and magazines, including *Newsweek* and *The New York Times*. He is the author of three books, including *Aborted Women*, *Silent No More*, and the co-author of two more.
